

RED BRIDGE

SHIRAZ

GRAPE VARIETIES & SOURCE:

Shiraz ex South Australia

HARVEST DATE:

February & March

The Red Bridge is the symbol that links the elements of nature - earth and water - to produce wines of outstanding quality and flavour. Link good friends and good food with our Red Bridge wines

WINEMAKING/VITICULTURE:

Fermentation was carried out under warm temperature conditions for a period of 6 days. This creates a good balance between extracting the appropriate tannin for wine structure and retaining fruit drive and aromatics.

TERROIR/SITE:

The vineyards consist of sandy soils of varying depth over limestone and these require careful water management as they readily dry out during the summer months. Strategies involving supplementary irrigation and also canopy management are adapted to suit each individual site in order to provide a good balance of light and shade in the canopy to maximise fruit quality.

TASTING COMMENTS:

Colour: Crimson red with purple hues.

Aromas: Concentrated plum and spice aromas are supported with subtle vanillan oak.

Palate: A medium bodied wine with flavours of juicy black cherries, red currants and hints of spicy oak combine together with soft tannins to give a lingering finish on the palate.

TOTAL ACIDITY (g/L):	5.8
pH:	3.8
ALCOHOL (%v/v):	13.5
